

URSTRONG Friendship Program

Recent research supports the importance of healthy relationships at school and their coordination to academic and overall success. At DSC, we recognize the importance of explicitly teaching our students healthy friendship and conflict-resolution skills. As such, we have introduced an award-winning program to our school, URSTRONG.

URSTRONG allows our school community to use shared language and collaboratively promote a kind school culture. To further support this initiative, our school membership offers free resources to our parent community. Please explore our resources below:
